DETAILED ACTION

Response to Amendment

1. Applicant's amendment and remarks, filed 27 August 2003, have been entered and are persuasive.

Allowable Subject Matter

2. Claims 1-10, 15-16, and 18-20 are allowed.
3. The following is an examiner's statement of reasons for allowance: Applicant has amended independent claims 1, 2, and 15 to include a limitation of the electron emission member having "a longitudinal dimension and an aspect ratio greater than one" in each of the claims. The prior art of record neither shows or suggests a field emission display comprising, in addition to other limitations of the claims, an emitter comprising an emission member having a longitudinal dimension and an aspect ratio greater than one.
4. The subject emission member, as described above, along with the alignment member is provided for enhancing electron-emitting characteristics of the display with an emitter having uniformly aligned electron-emitting components. Due to their dependency upon independent claims 1, 2, and 15, claims 3-10, 16, and 18-20 are also allowable. The design is new and unique to the art.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
